COIN ACCESSORIES

CATALOG 2022

www.lighthouse.us

Axel, Max, and Kurt Stürken (from left to right)

Dear collectors,

Passion and pleasure are two terms that we at LIGHTHOUSE have been pursuing for over 100 years with our high-end accessories. More than 6,000 products bear the LEUCHTTURM brand name, which has become a symbol of top quality and practicality. We are particularly proud of our latest range of products, new for 2022.

Gold has gained worldwide popularity since the onset of the financial crisis and is becoming increasingly attractive to investors and collectors alike. In addition, there are a number of silver coins, such as the American Silver Eagle and the Morgan Dollars, which have become bestsellers in the United States and abroad. In order to reflect the importance of this, we are devoting significantly more space to gold and silver coins in this edition of our catalog and are delighted to present several new VOLTERRA presentation boxes to you.

We are also excited to introduce our MAGIC CAPS, an innovative, PVC-free storage solution for ancient, curved, or other irregularly shaped coins. In addition, you will find expanded options for slab collectors as well as the versatile QUADRUM16-41 snaplocks. These are even available with a single NOBILE or AIRBOX case to quickly and easily turn every coin into a perfect gift. Discover this new product concept by scanning the QR code at the bottom of this page with your smartphone or tablet so you can watch a short product video on our YouTube channel.

We are constantly coming up with new, original and useful products to complement your hobby. Your feedback is very important to us. Please continue to support us with your comments and suggestions. Everyone needs to have a passion for something! We hope you enjoy browsing our catalog of coin and currency collecting accessories.

The LIGHTHOUSE coin albums not only provide your raw coins with the necessary protection, they also ensure that they are stored efficiently and impressively presented.

All LIGHTHOUSE brand transparent sheets are 100% acid and chemical softener free. They have been chosen by experienced stamp and coin collectors all over the world for many years.

Unlike generic sheets, which may be sourced by the distributor from varying suppliers with questionable quality control procedures, LIGHTHOUSE guarantees a consistently high quality product with its brand name. Who would settle for anything less when it comes to housing a truly precious collection?

No matter how you collect - LIGHTHOUSE has you covered! Do you need to store as many coins as possible in a small space?

Do you have a safety deposit box?

Do you transport your collection often?

Would you like to view your coins from both sides? Take a look at the many LIGHTHOUSE collection systems to find the one that is right for you. Not sure?

Feel free to give us a call or send us an email, we will be happy to help you choose.

Album Systems

for Coins and Currency

LIGHTHOUSE album systems are ideal for storing coins, currency, historical documents, and so much more. If you ever wondered how to store your elongated coins, champagne tops, bottle caps, playbills, or other leaflets, you will find a solution on the following pages. Our albums not only offer the necessary level of protection but also allow you to clearly arrange your collectors' items in the way you desire.

LIGHTHOUSE offers a wide selection of different album sizes, designs, and layouts. Each system offers an extensive assortment of matching supplementary sheets and pockets. Whatever system you choose, it can grow with your collection. Whether you are a beginner, casual collector, investor, or advanced collector with specific requirements, LIGHTHOUSE offers a collection system for virtually every need.

Clear and Simple – ENCAP pages for coins in capsules

Due to the success of the ENCAP pages for slabs and for QUADRUM snaplocks, we now carry pages for round coin capsules in many popular sizes.

ENCAP pages are convenient, secure, affordable - and a snap to use! Simply open the page, insert the coin capsules, and close it using the easy-snap closure points. The lightweight and durable pages allow view-ing the coins from both sides and make archiving and browsing easy. The coins can be securely displayed because the pages cannot be opened once the binder rings are closed. All ENCAP pages are made from crystal clear PET and are **100% PVC-free**.

ENCAP pages are available for slabs (PCGS, NGC, ANACS, EVERSLAB, QUICKSLAB and many others), QUADRUM and QUADRUM XL snaplocks and coin capsules with many different diameters – even for champagne caps or bottle caps (see details on page 27).

NOTE: ENCAP pages are made for the LIGHTHOUSE round coin capsules (see pages 82–83). However, they may also support other manufacturer's capsules. To select the correct ENCAP page, compare the outside diameter of the capsule with the maximum outside diameter as shown in the table on page 27.

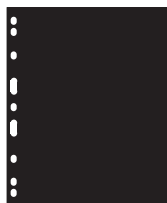

ENCAP pages can best be stored in all GRANDE ring binders (see page 28). They are compatible with all oversized 9x12" 3-ring or 4-ring binders. Attractively priced page, and binder combination sets are available on pages 26 and 27. Dimensions: 9 1/4 x 11 3/8" (240 x 282 mm).

Accessories for Challenge Coins

Challenge coins have been used as a valuable recognition tool dating back to the First World War. Military units began using challenge coins as a discreet way of claiming membership to a specific unit. While the use of challenge coins is still most popular among military units, today their use has extended into the corporate world as well as into athletics, law enforcement, member clubs and hobby groups.

LIGHTHOUSE offers different options to protect and present Challenge Coins.

When carrying your coin in your pocket, having a coin capsule protects the coin itself from your keys and loose change. It also works as a great display and keeps the coin shielded from dust and debris.

A coin box is an attractive way to present, deliver or store your custom Challenge Coin. If you own several Challenge Coins you can bring them all together in an elegant presentation case which effectively conveys how important the contents is.

Challenge Coins with 1.5" diameter

The widely used Challenge Coin size will fit into the round Ref. No. 328 440 (GRIPS 40) or the square Ref. No. 330 704 (QUADRUM38) with PVC-free black foam insert.

The LIGHTHOUSE Lockable Book Safe

Pss! It's a secret: the LIGHTHOUSE book safe is the perfect hiding place for your valuables, important documents, cash and jewelry. On the outside it looks like a LIGHTHOUSE stockbook, but when you open it, the inside contains a steel safe with a secure cylinder lock. The plastic side panels are designed like the pages of a book, thus giving the book safe an extremely authentic look and making it completely inconspicuous. Due to its small size, the book safe is also ideal for traveling. Material: Leatherette cover, safe made of steel (thickness: 5/16" / 0.8 mm). Comes with two keys, each with a separate key number that is unique to the built-in lock. Book color: black with gold embossing. Inside dimension of safe: 9 x 5 1/2 x 1 5/8" (229 x 137 x 40 mm). Size of book: 9 1/2 x 6 1/8 x 2 1/8" (240 x 155 x 55 mm).

Unobtrusive,
looks just like
a normal
LIGHTHOUSE
stock book.

For your
valuables,
documents,
cash and
jewelry.

Lockable safe
made of steel
with a secure
cylinder lock.

Pocket album for 48 PRESSED PENNIES

At the Chicago World Fair in 1892/93, a vending machine was set up for the first time, which was able to produce coins in an elliptical shape. These elongated coins also became known as "pressed pennies" or souvenir coins. Meanwhile, vending machines of this kind can be found all around the world, enabling visitors to create their own souvenir. The color of the coin inserted into the machine also determines that of the souvenir coin. Our pocket size pressed penny album is an ideal travel companion and enables you to create a "travel diary" of souvenir coins over the years. This handy album with laminated cover comes with 8 in-bound coin sheets with durable crystal clear inserts (free from chemical softeners). Each insert holds 6 coins each up to 1 1/4" (33 mm) in diameter for a total capacity of 48 elongated coins. Overall size: 4 1/8 x 5 7/8" (105 x 150 mm).

VOLTERRA Presentation Cases for Popular Silver Coins

For 11 "Queen's Beast" 2 oz. silver coins in original capsules*

Coin diameter 38.6 mm, 10 circular ports (45 mm diameter). Who would have thought that a coin set featuring British heraldic animals would become such a huge success? The Royal Mint's "Queen's Beasts" coins took the bullion world by storm – between 2016 and 2021, a total of eleven coins were issued, each bearing the mark of a particular aristocratic estate whose statue was present at the coronation of Queen Elisabeth II. In the meantime, collectors and investors all over the world seem to be experiencing "Royal fever" and are exploring British genealogy on the basis of these splendid coins.

Ref. No. 364 641

\$ 51.95

For 12 "Lunar Series III" 1 oz. silver coins in original capsules

Coin diameter 38.6 mm, 12 circular ports (45 mm diameter). It is quite rare for a coin set to be issued multiple times. However, the Lunar series from Australia has become such a great success that the Perth Mint issued a third series featuring animals from the Chinese lunar calendar. The first Lunar III issue, dedicated to the Year of the Mouse, was released in 2020. Australian "Lunars" are a strictly limited edition and have thus become highly sought-after collector's items.

CARGO L6 PRO Premium Coin Case

Contemporary design meets proven functionality: this stylish and durable coin case has a sturdy aluminum frame and is lined throughout in black velour. The padded lid holds trays and coins securely in place. The case features many attractive details, such as a combination lock to protect against unauthorized access. A removable and adjustable shoulder strap ensures superior carrying comfort. Metal corners and fittings highlight the quality craftsmanship that went into this practical and robust case. Case color: black/silver. Dimensions (L/W/H):

16 1/8 x 10 x 4" (409 x 255 x 102 mm).

- Metal corner fittings
- Lockable
- Rubberized feet
- Padded lid

Capsules and Accessories

LIGHTHOUSE offers a wide variety of coin accessories, starting with a huge selection of coin capsules, which allows for the optimum protection and perfect storage system for your coins. In addition to our popular round coin capsules for coin diameters from 14 mm to 62 mm, we also offer QUADRUM square snaplock capsules, EVERSLAB and QUICKSLAB rectangular capsules, as well as 2x2" cardboard holders in the traditional, economical style for stapling and the convenient, safe self-adhesive type.

LIGHTHOUSE offers a large assortment of quality tools and accessories, ranging from plastic tip coin tongs, coin cleaning fluids, scales, and calipers, to one of the largest and most versatile collection of analog and digital magnifying glasses and microscopes in the industry.

Coin capsules

Made of extra durable, crystal clear and scratch resistant acrylic.

Chemically inert. PVC-, acid-, and softener free.

Secure locking, yet easy to open. Sizes to fit most common coins. Compatible with LIGHTHOUSE coin boxes (see pages 63–65).

Price per pack of 10

S Coin stand

Easel is ideal for QUADNUM and QUADNUM XL coin holders as well as medium-sized and large coins with or without capsule. **Also suitable for all regular slabs** (PCGS, NGC, ANACS, QUICKSLAB, EVERSLAB). Size: H: 1 1/2" (38 mm), W: 1 1/8" (29 mm).

Ref. No. 360 896 **Pack of 5 \$ 4.95**

Large coin capsules GRIPS XL

These XL coin capsules are ideal for storing large coins or medallions of up to 4" (101 mm) in diameter. They come with individually removable spacing rings made of chemically inert black foam (free from PVC, acid, and chemical softeners) which also allows smaller coins to fit perfectly into the capsule. They are secure locking, yet easy to open. All capsules are made from durable, crystal-clear and scratch-resistant plastic and make a great replacement for scratched or defective original capsules.

1 GRIPS XL 21-62 coin capsule

Suitable for all coins from $\frac{7}{8}$ to $2\frac{3}{4}$ " (21 to 62 mm) in diameter. With 14 spacing rings. Interior height of capsule: $\frac{3}{16}$ " (4.5 mm). Exterior height of capsule: $\frac{1}{4}$ " (7.6 mm). Outer diameter: $2\frac{5}{8}$ " (67 mm).

Quadrum

The square coin capsule system

All square snaplocks have the same size (2 x 2 x 1/4" / 50 x 50 x 6.25 mm) and allow you to store coins with different diameters in one simple and practical collection system.

- Capsules with precise fit black insert for all coins from 14–41 mm diameter
- Inside height of capsule: 3.5 mm
- High quality, durable, scratch resistant plastic
- Capsules and inserts are chemically inert and free of PVC, acids or softeners
- Secure closure, yet easy-to-open

Many different collection ideas and concepts can now be assembled easily and beautifully using QUADRUN snaplocks. For superior storage, we recommend our extensive collection of accessories on the pages 92–103: choose from presentation cases, coin boxes, coin drawers and trays as well as pages and albums.

Price per pack of 10
\$ 6.95

We recommend our QUADRUN XL coin capsule for large coins with a diameter between 42 and 58 mm (see page 110).

Quadrum Intercept

The square coin capsule with **active** protection against tarnishing

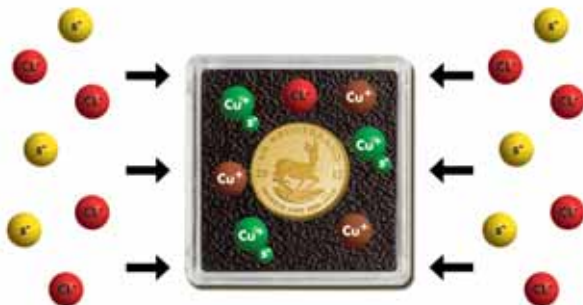

Tarnished coins are a thing of the past!

The patented process, already proven in many different industries, takes coin care to the highest level. Regular capsules and snaplocks limit a coin's exposure to ambient air and moisture. The highly porous, copper-based INTERCEPT TECHNOLOGY™ material inside the QUADRUN snaplock does even more: it provides **active** protection against tarnishing because it neutralizes harmful atmospheric gases inside the capsule, so that the coin is stored in a non-corrosive micro-climate. Visit www.lighthouse.us to learn about further details.

The advantages of QUADRUN INTERCEPT™ snaplocks:

- Patented INTERCEPT TECHNOLOGY™ with proven, 30-year track record in industries such as aerospace, defense, automotive, electronics, and mining
- Used by the US National Archives, the British Royal Mint, and other renowned institutions
- 15 years* of active protection from tarnishing (significantly longer in favorable storage conditions, such as cool and dry areas without extreme changes in temperature and humidity, and when container is not opened frequently)
- No oil build-up, no paint residue, non-toxic
- Available for all coins with a diameter of 14 to 41 mm
- **Inside height of capsule: 3.5 mm**
- Identical dimensions to the standard QUADRUN snaplock capsule
- Capsules with black inserts treated with INTERCEPT™ material
- Durable, crystal clear, scratch resistant plastic
- Secure closure, yet easy-to-open
- Extensive range of accessories is available

Scan to watch
product video

Pack of 6 **\$ 7.95** (capsules include inserts)

* Any deterioration in the effectiveness of the material can be noticed when a dark gray or greenish discoloration of the material occurs. If this happens the INTERCEPT TECHNOLOGY™ product should be replaced with a new one. The discoloration will not affect or spill over to the coin.

QUADRUN – The Square Coin Capsule System

All QUADRUN and QUADRUN INTERCEPT™ snaplocks are available with perfectly fitting inserts in millimeter increments from 14 to 41 mm. Capsules and inserts are free from PVC, acids, and chemical softeners.

All QUADRUN snaplocks can be stored in a wide variety of accessories (see pages 96–103, and 101–102). Choose from presentation cases, coin boxes, coin drawers and trays as well as pages and albums.

Ø 14–41 mm

Available in mm increments.

We recommend our QUADRUN XL coin capsule for large coins with a diameter between 42 and 58 mm (see page 104).

INTERCEPT™ technology for collectors

... means collecting with active protection against your coins getting tarnished!

Exhaust fumes and moisture lead to coins becoming corroded

Danger is in the air ...

Corrosion is a numismatist's worst nightmare. Even if your collection is well cared for and carefully stored, external influences can still damage the material of your valuable coins. This is because the air contains several substances which react with metals, leading to corrosion. Nitrous gases are one example, in addition to ozone and other corrosive gases, such as hydrogen sulphides, ammonia, carbonyl sulphide and chlorine compounds.

Problems with traditional methods of protecting coins

There are currently different ways for collectors to protect their coins. However, in comparison to Intercept™ they all have disadvantages, e.g.:

As regards regular cleaning, it is important to remember that any contact with the precious surface of the coin will wear it. So, less is more.

This is also true for sealing coins with varnish, wax or oil. The inestimable risks involved in these processes mean they do more harm than good.

The tried-and-tested coin capsule protects from mechanical damage and the acids found on human skin, but it cannot offer permanent protection from corrosive gases.

Technology tried-and-tested in industry

INTERCEPT™ technology has been used in IT and heavy industry for more than 30 years and provides reliable protection for highly sensitive platinum, electronic components and car and aeroplane parts during storage and transit, as well as for packaging whole industrial machines. Even museums and archives use this process: the Guggenheim Museum, the US National Archive and the British Royal Mint use it to protect coins, sculptures and other works of art.

Ideal for packaging, transport and storage of easily corroded metals

Patented protection

The process has been proven effective in countless trials and lab tests according to DIN, EN, ISO and ASTM standards. The protection is so effective that even moisture penetration is rid of corrosive elements. The process was even recognized for its eco-friendliness by the German Federal Institute for Occupational Safety and Health. All INTERCEPT™ products are non-toxic and completely recyclable.

INTERCEPT™ is used in lots of industries, such as aerospace, defense, automotive, electronics, machine engineering, mining and oil and gas extraction.

INTERCEPT TECHNOLOGY™ boxes

The new line of LIGHTHOUSE storage boxes provide active protection against tarnishing thanks to patented INTERCEPT TECHNOLOGY™. All glossy white boxes are manufactured of sturdy inert materials and are archival quality. Each box is equipped with INTERCEPT TECHNOLOGY™ lining which purifies the atmosphere inside the box. They are suitable for the storage and preservation of coins made of copper, bronze, silver, and gold.

INTERCEPT™ Box Q100

- Holds 100 QUADRUM square snaplocks or approx. 300 coin holders 2x2"
- Comes with "stoppers" to prevent contents from falling when the box is not completely filled
- Overall size: 14 ½ x 5 x 2 ½"
(370 x 125 x 62 mm)

Ref. No. 345 235

\$ 19.95

INTERCEPT™ Box Q30

- Holds 30 QUADRUM square snaplocks or approx. 100 coin holders 2x2"
- Comes with one "stopper" to prevent contents from falling when box is not completely filled
- Overall size: 9 ¼ x 2 ½ x 2 ¼"
(238 x 65 x 56 mm)

ULTRA INTERCEPT™

Premium capsules with INTERCEPT™ rings for **active** protection against tarnishing

The patented INTERCEPT TECHNOLOGY™ material is now also available inside an ultra-clear rimless capsule. Regular capsules limit a coin's exposure to ambient air and moisture. The highly porous, copper-based INTERCEPT TECHNOLOGY™ material does even more: it locks in corrosive gases and provides active protection from tarnishing for up to 15 years, significantly longer in favorable storage conditions, such as cool and dry areas without extreme changes in temperature and humidity.

- Premium clarity, scratch resistant, rimless capsule
- Secure locking, yet easy to open due to thumb cut
- Chemically inert EVA foam insert treated with INTERCEPT TECHNOLOGY™
- Non-toxic, free of PVC, acids, and chemical softeners
- Available for all coins from 26 to 41 mm diameter
- Compatible with many LIGHTHOUSE storage solutions (please note outside diameter of capsules)

Storing multi-coin sets is now as easy as 1-2-3!

Are you looking for an affordable yet elegant way to store a set of 2 to 9 coins? Follow these easy steps: 1. Select the appropriate size or sizes of QUADRUM capsules. 2. Select a VOLTERRA case or NOBILE box for 2 to 9 QUADRUM holders. 3. Place the coins inside. Voila!

NOBILE coin etuis

Elegant coin etuis with a leatherette finish for storing coins in capsules. The sturdy metal casing is covered with a fine-grained, padded leatherette fabric. The satin-covered lid cushion, as well as the stylish velvet inlay give these etuis a look of premium quality. The inside lid features a satin ribbon to store a certificate.

For round
coin capsules

For the most elegant presentation of coins in capsules, we recommend these high quality coin boxes with satin lined lid and black velvet inlay. A satin lined lid with a certificate band. A sturdy metal frame protects the coin and is covered with matt black leatherette. Also suitable for QUADRUM square coin capsules.

Overall size: 2 1/2 x 2 1/2 x 1" (65 x 65 x 26 mm).

Capsules not included.

Quickslab Rectangular Coin Capsules

QUICKSLAB coin capsules can be opened and closed at any time.

Includes labeling option

QUICKSLAB coin holders perfectly integrate into your current collecting system for regular certified coin holders (“slabs”). If you are mainly a slab collector you will only need one collecting system, even if you own coins that have not yet been graded.

- Rectangular coin capsules with precise fit black inserts.
- Available in mm increments for coins from 14 to 41 mm in diameter.
- **Inside height of capsule: 4.6 mm.**
- Capsules are made from clear, scratch resistant plastic and can be closed with a “click” and reopened if desired.
- Capsules and inserts are chemically inert and free from PVC, acids, or chemical softeners.
- Capsules have a labeling field and come with a blank labeling card to display information about the coin.
- If replacement labeling cards are needed, a convenient template is provided at www.lighthouse.us (click the “Service” tab). Simply type your text, then print on a regular printer, and cut out the label.
- Overall size: $2 \frac{3}{8} \times 3 \frac{3}{8} \times \frac{3}{8}$ " (59 x 85 x 10 mm).

\$ 8.95 (pack of 5)

Easy to use: with a simple “click”, the top and bottom of the capsules are securely closed.

Use

MAGIC CAPSULES

No matter if ancient, curved, or triangular, the MAGIC CAPSULES are the perfect storage solution for your irregularly shaped coins. The special membrane inside the capsule is transparent, flexible, and conforms to the collectible, giving it the appearance to “float” so that it can be viewed from front and back. Suitable for coins up to $\frac{1}{4}$ " (7 mm) in height. Outside height of capsule: $\frac{1}{2}$ " (13 mm). Capsule made from premium clarity, scratch resistant polystyrene.

MAGIC FRAME

It's "magic"! Let your favorite items "float"!

Put a spotlight on your favorite collectors' items or trinkets using these unique display frames. Simply open the frame, insert the object, and close the frame; done! Thanks to two transparent, flexible membranes, the object is gently surrounded and appears to float in the frame. The free-standing plastic frame comes with two feet and allows the object to be viewed from the front and back. Select from 6 different sizes. Suitable for coins, stamps, minerals, toys, pocket watches, insignia, and much more.

Available in 6 different sizes:

NEW

Large Work mat BASIS

Do you want to measure, examine or encapsulate your coins?

This soft, heavy-duty mat provides ideal working conditions and protects tabletops as well as collectors' items from scratches and stains: The top of the work mat is made from a smooth, fuzz-free material. The underside is rubberised and is therefore extremely non-slip. Additionally, the mat can be cleaned with warm water and is very compact when rolled up.

Perfect for repairs, making and maintaining models, watches and pieces of jewellery and when examining and dealing with minerals, fossils, precious stones, etc., as well as a photo background. Overall size: 19 $\frac{2}{3}$ x 13 $\frac{3}{4}$ " (500 x 350 mm), height 1" (2 mm).

Coin Cleaning Fluids

Specially formulated, Made in Germany liquid cleaners for the instant and gentle removal of oxidation on coins. Simply submerge coins 3 to 8 minutes, rinse thoroughly, and dry with a soft cloth (do not rub!). The duration of the treatment depends on the type of cleaning fluid and the level of oxidation (be sure to carefully read the specific instructions included in the lid of each product). Keep out of reach of children! Comes with a child-safety lid. **NEW larger container.** Contents: 6.75 fl oz (200 ml).

\$ 16.95 each

LIGHTHOUSE coin cleaners are suitable for the following types of coins:

Gold coins Ref. No. 336 203

Silver coins Ref. No. 317 893

Copper coins Ref. No. 321 584

(not for cupronickel coins!)

Bi-metal and cupronickel coins Ref. No. 343 206

(1 EURO, 2 EURO, CAN\$2, also 1 DM)

Extra-mild coin cleaning liquid for all coins or precious metals.

Removes dirt and grime but does not deoxidize.

Ref. No. 318 851

4-in-1 polishing cloth

This finely woven, soft cleaning cloth is a real multi-talent: it is made up of 4 clearly labeled sections which are perfectly suited to polish different types of metals and are impregnated accordingly with different additives. The cloth removes dirt effortlessly from silver, gold, platinum, brass and copper, making your coins, medals, and badges of honor shine again. Also great for cleaning jewelry, watches, and silverware. Material: 100% cotton. Overall size: 13 ³/₄ x 13 ³/₄" (350 x 350 mm).

Ref. No. 353 837

\$ 17.95

Important note: Mints of "proof" or "proof-like" quality should not be touched in order to keep their value. The coin polishing cloth is perfect for cleaning "used" circulation coins.

Note: These polishing cloths are perfect for "used" coins from circulation. However, ancient or proof coins as well as any coins that

may be submitted for grading should generally not be cleaned. Please consult a reputable coin dealer for professional advice.

Coin polishing cloth

This finely woven, fleece coin polishing cloth leaves your tarnished coins bright and shiny again. The cloth has been treated to make dirt or tarnishing disappear with gentle rubbing. Also suitable for jewelry, watches, and silverware.

Ultraviolet examination lamps

Long wave UV lamps help the currency and stamp collector to identify fluorescent paper and inks. They are an important tool to verify authenticity and to check for repairs or forgeries. Long wave ultraviolet light typically has a wavelength of approx. 366 nm (nanometers). Short wave ultraviolet light with a wavelength of approx. 254 nm is used to identify phosphorescence.

Long-wave ultraviolet table lamp L 92

For the reliable **detection of fluorescence** on stamps, banknotes and credit cards. Broad spectrum of long waves. Peak efficiency at 366 nm. 4-watt bulb. Operates on 110 - 120 V, 60 Hz mains supply. Double insulation. Overall size (L/W/H): 7 1/8 x 4 1/2 x 3" (180 x 115 x 75 mm).

Ref. No. 341 000

\$ 34.95

Dual-function UV / LED pocket flashlight L 83

Robust and practical pocket-sized flashlight with 2 functions: ultraviolet and white light! The 6 UV LEDs emit 365 nm wavelength (long-wave UV) and can even be used in bright environments and in broad daylight. The flashlight has numerous applications, e.g. detecting fluorescence in banknotes, stamps, minerals and fossils, examining credit cards and driver's licenses, making UV fluorescent colors visible. The 10 powerful, white LEDs make this flashlight an ideal companion for outdoor activities such as fishing, climbing, camping, geocaching, and much more. Sturdy metal casing with integrated wrist strap. Battery powered (3 x AAA, not included). Length: 5" (125 mm).

Ref. No. 349 388

\$ 29.95

Switchable dual UV lamp L 81

This versatile precision UV lamp combines two functions in one device: stamps, banknotes, credit cards, phone cards, etc. can be examined for **both fluorescence and phosphorescence**. The combination of short and long UV rays (switchable between 254 and 380 nm) makes this lamp especially practical for the user. Battery operated: 4 AA (not included). 4-watt (254 nm) or 3-4 mW (380 nm).

Ref. No. 325 178

\$ 74.95

Portable long-wave UV lamp L 80

Long wave, hand held, portable model for **detection of fluorescence** of stamps and tagging on currency or phone cards. 4-watt efficiency. Requires 4 AA batteries (not included). Broad spectrum of long waves. Peak efficiency at 366 nm. Reliable detection of luminescence. Suitable for use on most areas. i.e. Canada, Mexico, Norway, France, Hong Kong, People's Republic of China, Russia and definitives of Great Britain after 1992.

Optical accessories

Magnifiers are an essential tool for all stamp and coin collectors alike. Whether beginner or expert, at home or on the go, LIGHTHOUSE offers a wide selection of many different styles to suit virtually every collector's needs.

Magnifiers with 2–3x magnification

These magnifiers allow viewing the entire stamp or coin. The motif can be viewed easily and some details become visible. These magnifiers are also great as a reading aid.

Magnifiers with 5–7x magnification

A lot more details can be identified. Unfortunately, increased magnification also means reduced lens diameter and field of view. For proper use, the distance between the eye and the magnifier as well as between the magnifier and the object become smaller.

Magnifiers with 10–20x magnification

With this magnification you are very close to the collector's piece and even the smallest details are visible. For most printing processes individual pixels can be clearly identified.

Microscopes

Microscopes can take a collector's analysis to a new level. Intaglio printing becomes more vivid, microprinting can be viewed easily, and plate errors or die imperfections can be detected.

Light

A good source of light is important - but not always available. LED technology makes it possible to equip even the smallest of magnifiers with powerful illumination while using only a fraction of the energy that conventional light bulbs require. There are even LEDs emitting long-wave UV light which allow identification of fluorescence.

Digital microscopes

Digital technology brings your coins or stamps onto a computer screen. The software included with the products enables objects to be recorded and stored. The USB Digital Microscope quickly and easily creates files that can be emailed, uploaded to websites, or imported into graphics software for further editing and labeling.

Hand-held 7x magnifier with LED

Handy pocket magnifier with Perspex aspheric lens, powerful white LED, and 7x magnification at an affordable price - which is "just right" for many collectors. Lens diameter: $1\frac{3}{8}$ " (35 mm). Includes 3 AAA batteries. Overall size: $4\frac{3}{4} \times 1\frac{3}{8} \times 1$ " (120 x 42 x 26 mm).

LOOK magnifier set 2.5–10x

This set of magnifiers brings together 3 of the most popular magnifiers in an optimal combination, so that you're equipped for any situation:

The **frameless magnifier** with a handle and 3x magnification enables holistic viewing of larger objects thanks to the especially large acrylic lens (diameter 3 1/2"/90 mm) and 2 white LEDs.

The compact **pocket magnifier** has 5 functions in one gadget: a large lens with 2.5x magnification (lens diameter 1 1/4" x 1 1/2"/30 x 37 mm), a small lens with 10x magnification (diameter 7/8"/15 mm), a UV lamp, LED pocket torch and a pull-out ball-point pen. Due to the compact design, it is ideal for travelling, e.g. when visiting fairs or for shopping.

The **precision magnifier** (lens diameter 7/8"/21 mm) provides high-resolution definition for the finest of details, thanks to its 10x magnification and 2 white LEDs.

Desk Magnifier 5x "BULLAUGE"

Practical desk magnifier featuring quality acrylic lens (diameter: 2 1/2" / 65 mm) with 5x magnification. The unique shape is reminiscent of a nautical port hole (German: "Bullauge") and two non-slip handles allow maneuverability with ease of use, similar to a computer mouse. Side illumination is provided by 6 white LEDs with 3 different brightness settings. Black frame with recessed base to limit direct contact with the collectible item. Also works great as a reading aid, particularly, when disturbance of others should be minimized (as on a plane ride). Includes 3 AAA batteries. Dimensions (W/L/H) 3 3/4 x 5 1/2 x 1 3/4" (95 x 140 x 47 mm).

MONOKEL magnifying glasses 10–25x

The MONOKEL LED magnifying glasses are perfect for hands-free operation. Examine minute details, such as re-gummed stamps or double-die coins. Features 4 interchangeable lenses with different magnifications: 10x, 15x, 20x, and 25x. The magnifying eyepiece can be adjusted sideways to fit the user's face and can be folded upwards. Illumination provided by a movable LED light mounted to the side of the eyepiece. For best results, we recommend keeping a distance of approx. $\frac{1}{4}$ to $1\frac{1}{4}$ " (5 – 30mm) between viewing object and lens (depending on lens magnification). Includes 3x button cell batteries LR1130.

PHONESCOPE up to 60x magnification

The PHONESCOPE macro lens turns your smartphone or tablet into a powerful digital microscope with up to 60X magnification. The finest details, such as the stamp printing processes, can be recognised and checked using the camera function on your smartphone. The enlarged details can be saved as a photo or video. The macro lens offers a variety of uses for both hobby and study and is ideal for use as a reading aid or digital microscope. It's particularly practical when you're on the move, as neither a power supply nor batteries are required. By saving the images on your smartphone, these can then be shared with friends and acquaintances without any effort. Suitable for all conventional smartphones and tablets. Glass lens. Overall size: $1\frac{1}{2} \times 1\frac{7}{8} \times 1\frac{1}{2}$ " (38 x 47 x 39 mm). Easy to use: simply attach the macro lens to the camera on your smartphone, start the camera function and zoom as required.

LCD Digital Microscope 10–500x magnification

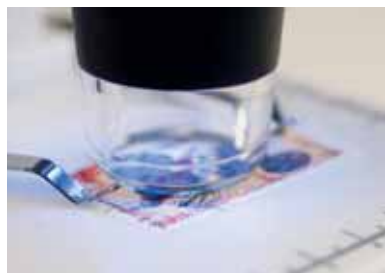

Stand alone microscope with built-in 3.5" LCD screen and microSD card that offers connectivity to a computer or TV

- Precision: Superb image sharpness provided by 5-megapixel camera with adjustable focus. Up to 500x magnification thanks to 4x digital zoom. 8 adjustable white LEDs ensure optimal lighting. Software is quick and easy to install and features a calibration function for the exact measurement of enlarged objects (**this function is not supported by Mac computers**).
- Flexible use: Rechargeable Li-ion battery allows for portable use without plugging the unit into a PC or laptop.
- Multiple output options: Captures photos or videos which can be saved on the 4GB microSD card (included), transferred to a computer, and viewed on a computer or TV screen.
- Countless applications: Ideal for the detailed examination of stamps, coins, banknotes, minerals and more. Suitable for hobby, school, or studies.
- Overall size: 4 1/4 x 9 x 6" (105 x 230 x 150 mm).

\$ 369.95

Suitable for objects up to a height of 1 5/8" (40 mm)

Technical specifications:

3.5" LCD color screen. 5-megapixel active pixel sensor (CMOS sensor). 10–500x magnification. Built-in 4X digital zoom. Resolution: Image: 12 M, 9 M, 5 M, 3 M, 1.3 M (JPG) / Video: 640 x 480 pixels (VGA). Maximum visual surface: approx. 20 x 15 mm. Suitable for objects up to a height of 40 mm (visual surface: approx. 14 x 11.5 mm). Light: 8 white LEDs, USB 2.0 connection. Software (languages: German, English, French, Spanish, Portuguese, Italian, Dutch, Russian, Polish, Chinese): Windows XP / Vista / Win7 / Win8 / Win10 / Mac OS 10.6 or later (measuring software only works with Windows). Operating instructions: English, German, French. Power supply: wall plug transformer, 3.7 V Li-ion battery. Delivery includes: LCD digital microscope, Li-ion battery, adapter, USB cable, AV cable, CD with software and operating instructions, 4 GB microSD card, cleaning cloth.

20-200x

LCD Digital Microscope 20-200x magnification

Stand alone microscope with built-in 4.3" LCD screen, microSD card, and additional flex-arm lighting

8 dimmable LEDs and 2 separate USB lights with flexible arm provide versatile lighting.

Technical specifications:

4.3" TFT LCD color screen. HD image sensor (720 P CMOS sensor). Magnification (optical): 20x - 200x. Built-in 5x digital zoom for up to 1000x digital magnification. Resolutions Image: 24 M, 20 M, 16 M, 8 M, 5 M, 3 M, 1 M (JPG) / Video: 1920 x 1080 (FHD), 1280 x 720 (HD), 640 x 480 pixels (VGA). Illumination: 8 white LEDs (dimmable) + 2 separate USB lights. Tilt angle of screen: 30°. Screen unit is fully detachable. Operating instructions: English, German, French. Power supply Device: wall plug transformer + adapter 100-240V, 50/60Hz, 3.7 V Li-ion battery/ USB bulbs: 2x AA batteries (not included). Package includes: LCD digital microscope, Li-ion battery, power cable and adapters, 2 USB lights, 4 GB microSD card, cleaning cloth.

- Visual quality: A crisp and sharp color image is provided by the 4.3" TFT LCD screen and the built-in HD image sensor. The unit offers 20-200x optical magnification and an additional 5x digital zoom for up to 1000x extrapolated magnification so that even the most minute details become visible. 8 white dimmable LEDs and 2 separate USB lights with a flexible arm allow for many different lighting options from the top or side.
- Mobile use: Unit can be operated without permanent power supply due to rechargeable Li-ion battery. Bonus feature: The screen unit can be detached from the base and used as a portable device. The screen can be tilted for additional convenience.
- Image capture: Image and video recordings can be conveniently stored on a 4 GB microSD card which is provided with the unit. Important: Images or videos can only be transferred to a PC or Mac computer by means of the microSDcard (SD card reader and adapter may be required, not included).
- Does not include software.
- Overall size: 9 x 5 x 5 7/8" (230 x 125 x 149 mm).

Magnification: 10x – 300x. Image sensor: 5 Megapixel (true optical). Photo format: JPEG. Video format: AVI. Power supply: via USB 2.0 or USB 3.0 port. Light source: 8 white LEDs (adjustable and can be turned off). White balance: automatic. Operating systems: Windows 7/8/10, Mac OS 10.12 or higher. Included software: MicroCapture Pro with measurement and calibration function, multilingual (incl. English, German, Spanish, French, and more. Box contents: USB digital microscope, installation CD-ROM with driver software and complete instruction manual, Quick Start Guide, and calibration ruler. Device dimensions: approx. 4 1/4 x 1 3/8" (110 x 35 mm).

Premium stand for Digital Microscope

- For superior results of microscope applications, such as photo and video imaging.
- Perfect for close-ups of small objects as well as vibration-free images of larger items. Extra high rod (16" / 405 mm) allows large coins, medallions, and regular certified coin holders (slabs) to be viewed in full.
- Stable base with mm-scale and holding clips.
- Distance between microscope and research object continuously adjustable. Additional movable slide for fine adjustment.
- Microscope holder suitable for all microscopes with 1 $\frac{3}{8}$ " (35 mm) diameter, such as LIGHTHOUSE DM4 (Ref. No. 350 599).
- With installed adapter (reducer ring included in box) also suitable for all microscopes with 1 $\frac{1}{4}$ " (33 mm) diameter, such as LIGHTHOUSE DM1 (Ref. No. 313 154).
- Easy and quick to assemble, no tools required, instructions included.
- Material: stainless steel / plastic.
- Total height: 16" (405 mm).
- Base dimensions: 6 $\frac{3}{4}$ " x 4 $\frac{3}{4}$ " (170 x 120 mm).
