## Dear collectors,

Passion and pleasure are two terms that we at LIGHTHOUSE have been pursuing for over 100 years with our high-end accessories. More than 6,000 products bear the LEUCHTTURM brand name, which has become a symbol of top quality and practicality. We are pleased to present this Accessories for Philatelists catalog, containing our complete range of accessories for stamp collecting enthusiasts.

Virtually every avid stamp collector around the world is familiar with the HAWID brand. Since September 1, 2021, HAWID stamp mounts have become a part of the LEUCHTTURM portfolio of brands and will continue to be offered in the same quality that have made them popular and trusted for over 70 years. Please turn to pages 39-43 to find an extensive range of strips, pre-cuts, and block mounts, as well as other accessories. If you are interested in our Large Mount Cutter simply scan the QR code at the bottom of this page with your smartphone or tablet so you can watch a short product video on our YouTube channel.

We would like to draw your attention to our new zipper folder KURT which is ideal for transporting coins, stamps, banknotes, postcards, and more. Your collection is safe and inconspicuous thanks to the robust zipper. We are also introducing products for other collecting areas, such as trading cards and insignia.

We conducted a customer survey a while back, and were exceptionally pleased to receive a lot of positive feedback concerning our products, customer service, and the good value for money that we offer. We intend to keep it this way. That is the reason why your feedback is particularly important to us, so that we can meet your collector needs in the future, too. Please continue to support us with your comments and suggestions.

Everyone needs to have a passion for something! We hope you enjoy browsing our catalog of stamp collecting accessories.

# Illustrated Country Albums

Sophisticated philately requires a professional aptitude and attention to detail. LIGHTHOUSE illustrated country albums are not only developed with expertise and attention to detail but also manufactured with the highest quality of material and workmanship.

In addition, LIGHTHOUSE provides the stamp collector with a wide range of philatelic accessories which leaves nothing to be desired. LIGHTHOUSE illustrated country albums fulfill the demands of even experienced and discerning philatelists with a huge selection of over 140 collection areas, all compiled with the utmost in philatelic expertise by our renowned editorial department.

To store every collection in style, LIGHTHOUSE offers a variety of binders with different mechanisms and designs. These binders feature durable high quality covers with gold embossing and become long term companions for every collector.

**Discerning philately demands a professional aptitude and a love for detail:**

## **LIGHTHOUSE pre-printed albums**

The LIGHTHOUSE album series has been prepared with so much expertise, knowledge, and attention to detail. All materials and production must be of a high quality.

With a large variety of over 140 collection areas and editorial philatelic processing by our renowned editorial office, LIGHTHOUSE pre-printed albums satisfy even the demands of the experienced and avid philatelists.

Stamps of the same kind which vary in color, perforation or printing process have their individual characteristics noted on the respective album page. This only applies to stamps with Michel (major) numbers and they include the year where required. This label can be located next to or, in the case of inlaid stamps, underneath the SF mount according to the type of information in question. Featuring the information in this manner will ensure an aesthetically pleasing overall presentation.

LIGHTHOUSE prints its album pages (size 10  $\frac{5}{8}$  x 11  $\frac{5}{8}$ " / 270 x 297 mm/13-hole system) on non-ageing wood and acid free cardstock in high resolution black and white offset print.

The SF protective mounts are free of chemical softeners and have a clear non-reflecting film the same size as the pre-printed stamps, they affix to the page. These hold the stamps in place and prevent them from getting stuck. At the same time, they provide ideal protection against dust and dampness.

LIGHTHOUSE offers pre-printed album pages without the SF protective mounts for some countries. Those pages are located in the section titled "Regular" edition.

LIGHTHOUSE binders come with different mechanisms and designs, so you can decide which storage style best suits your needs. Here, too, quality and a great love for detail are at the forefront of our objectives. LIGHTHOUSE binders, with their high quality and robust covers with gold embossing, are often a long term companion for any collector (see pages 30–36).

### **Number of pages**

The number of pages listed in the detailed country information includes the title page.

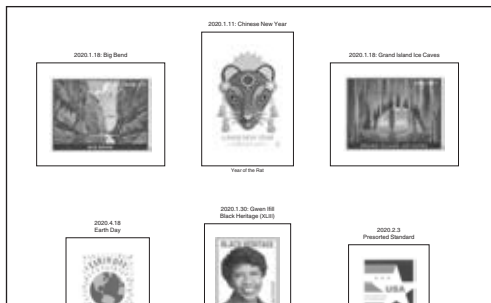

## The advantages of LIGHTHOUSE illustrated albums

Pre-printed albums are available in a large variety of colors.

Superior black and white print quality – you can immediately spot the missing stamps in your collection.

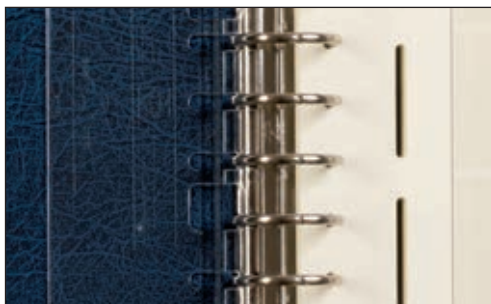

Optimum protection for your stamps using the appropriate SF mounts (100% polystyrene, free from chemical softeners, stabilisers and sulphur).

Cardstock is acid-free and wood-free.

13 punched holes, meaning sheets stay in position in the binder. Elongated punched holes to ensure sheets remain flat.

Ideal for different types of binders (springback, ring and turn-bar binders).

### Supplements:

You can always keep your LIGHTHOUSE albums up to date with the annual supplements. Supplements are published each year for stamps issued in the previous year. Call us to be set up as an automatic subscription customer for supplements.

## The LIGHTHOUSE Album of the United States

The LIGHTHOUSE UNITED STATES OF AMERICA Album is without a doubt the finest, most specialized US Album in print today. It provides spaces for all major catalog numbers with exact stamp illustrations or descriptions. The following issues, grouped separately wherever possible, are completely covered: Regular, Commemorative, Air Mail, Coil Stamps, Special Delivery, Registration, Certified Mail, Postage Due, Parcel Post, Parcel Postage Due, Special Handling, Carrier Stamps, Offices in China, Confederate States. The album is divided into 5 basic sections. For the advanced collector several additional specialized sections are available.

- Part 53 ON** Official Stamps 1873–1911  
Postal Savings 1910–1911  
Newspaper Stamps 1865–1899
- Part 53 FP** Covers exclusively gutter pairs, line pairs, blocks of four and souvenir sheets of the “Farley” special printings of 1935
- Part 53 HP** Federal Duck Stamps

Binders with country name imprint

Our 2-Post PERFECT DP binders (see page 30) with country name imprint have become the favorite among collectors. They are available for many countries and collecting areas. The name, embossed in gold color on the spine, is usually in the native language of the respective country. Due to the overwhelming preference of our customers, the country name binders are now available with slipcase only. For more detailed numbering, subtitles etc. we offer self-adhesive labels (see page below).

## LB Pages

The practical LB system with all its different combinations of strips and pockets was developed after years of research and careful study of collectors' needs. With the LB pages you can give your collection that special personal look. They are particularly useful for topical collections or adding special items to existing country albums. You can design any combination or grouping you desire: mint sheets, maxi cards, FDC's, booklets, singles, block souvenir sheets, even postal stationery. The sheets are also ideal for storing and displaying new stamps prior to receiving your new supplements.

Overall size of the LB page is:  
**10 <sup>5</sup>/<sub>8</sub> x 11 <sup>3</sup>/<sub>4</sub>" (270 x 297 mm).**

## HAWID Stamp Mounts

HAWID is a brand that is well known to virtually every avid stamp collector around the world. Since September 1, 2021, HAWID stamp mounts have become a part of the LEUCHTTURM portfolio of brands and will continue to be offered in the same quality that have made them popular and trusted for over 70 years.

The stamp mounts are made of archival polystyrene (PS) which is PH-neutral and does not contain chemical softeners, sulphur, or acids which may harm a stamp's ink, paper, or original gum. The extensive range offers optimal flexibility and lasting protection and is comprised of strips, block mounts, and pre-cut mounts which are available with either a black or a clear backing film.

Besides the stamp mounts, you will also find a guillotine-type mount cutter to cut your mounts to the required size, a special adhesive to affix the mounts onto the album pages as well as a glue stick to bond two layers of film.

## The HAWID range of stamp mounts

### 1. HAWID strips

8 1/2" (217 mm) long, in various heights. The strip is 4 mm higher than the indicated stamp size for that nice "centered" look. Cut the width to your requirements.

### 2. HAWID block mounts

In most popular sizes. For postal stationery, blocks, mini sheets, and more.

### 3. HAWID pre-cut mounts

For all common stamp sizes. Here, too, the stamp mount is 4 mm higher than the indicated stamp size so that the stamp can be properly framed in the center.

Clear stamp mounts are ideal for organizing stamps on pre-printed (illustrated) album pages. By contrast, stamp mounts featuring a black backing film provide a frame to the individual stamp and highlight the stamp's perforated edge.

### 3 ways to insert

#### HAWID stamp mount:

HAWID stamp mount with a bottom seam and gummed base backing film. Stamps can be inserted either from the side or from the top. Open on 3 sizes these mounts allow for ample air circulation. "Cut-to-size" mounts can even accommodate less common stamp sizes/shapes.

#### Double weld (d) = sealed at the top and bottom:

Two parallel welds and a gummed base backing film. Stamps are inserted from the side. There is no front opening which is especially useful for larger stamps.

#### Schaufix (s) = sealed at the top and bottom, opens in the back:

Two parallel welds and a gummed base backing film with an opening in the middle so that large stamps can be easily inserted and stay securely in place without a front opening.

## HAWID stamp mounts – all the benefits at a glance:

- ▶ Many years of experience in the production of stamp mounts
- ▶ "Made in Germany" quality
- ▶ Extensive range of strips, pre-cut, and block mounts stamp mounts with clear and black backing film
- ▶ Mounts hold stamps securely in place thanks to the strong seam
- ▶ Material: 100% polystyrene (free from chemical softeners, acids, stabilizers)
- ▶ Anti-glare coating prevents irritating light reflections
- ▶ All mounts are pregummed with a special adhesive on the backing film to ensure a safe and durable bond to the album page (simply moisten and affix the mount in the desired location)

Ref. No. 326 347

**\$ 4.95**

## Hawid Glue Stick

To bond two layers of polystyrene film and close the top of a mount. This turns a regular HAWID mount into one with a double seam and allows to resize a mount for an exact fit. The glue pen contains the same solvent used to create the mount welds in factory production.

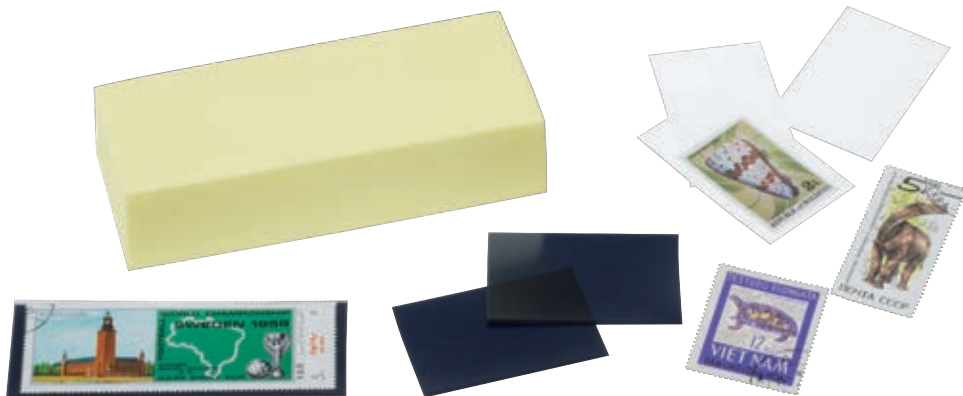

Ref. No. 330 058

**\$ 9.95**

## Sponge for SF mounts

The LIGHTHOUSE sponge is ideal for moistening pre-cut mounts and strips. It has excellent water binding properties. The mounts are moistened by briefly placing them on the sponge, pressing and then sticking. Material: PVA. Size: 5 x 2 x 1 1/4" (125 x 50 x 30 mm).

Ref. No. 357 702

**\$ 7.95**

**Please note:** The sponge will become hard when dry but softens again upon contact with water.

# Stockbooks and Stockcards

Stockbooks are stamp albums made of heavy cardboard with horizontal glassine or clear film strips, into which stamps are inserted. Even if part of the collection is stored differently, e.g. in illustrated country albums, stockbooks are an essential piece in the tool kit of every philatelist. They can serve to hold duplicates, as a mobile solution for visiting stamp shows, or to accommodate the most valuable pieces inside a safety deposit box.

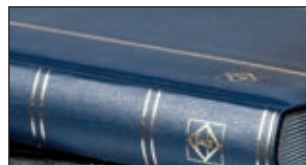

On the following pages, you will find over 80 different varieties to meet every preference and application. Please select the size of your stockbook, as well as the color of the cardboard, the number of pages, and the material and color of the cover.

## Brand name quality Made by LIGHTHOUSE

Stockbooks are simple bound stamp albums made of extra heavy cardstock with strips to hold the stamps. They are available in an endless array of sizes, shapes and colors, with hard or padded covers. Some have rigid, book-like bindings, others are equipped with a flexible, double-linen hinged binding to ensure the pages lie absolutely flat. Certain styles are offered with matching slipcases to provide the best possible protection from dust and light. Stockbooks are an indispensable tool for every collector. They are useful for storing stamps before adding them to pre-printed albums as well as for keeping duplicates and extra stamps for trading. They are also recommended for starting topical collections or for storing your most valuable stamps in safety deposit boxes.

**Embossed gold stripes for a sophisticated look of the cover.**

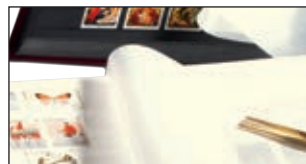

**Tried and tested double-linen hinged binding (DLH) so that pages lie completely flat.**

**Hard-wearing leather\* or leatherette cover.**

\* LEFA = bonded leather material consisting of 85 % leather fibres and other sustainable natural raw materials.

**Double-sided interleave (glassine or clear film) for optimum protection of your stamps.**

**Extra heavy cardstock.**

**LEFA** = **Leather fabrics** (bonded leather) is a bookbinding material consisting of leather fibres and other sustainable, natural raw materials (natural tanning agents, natural latex, natural fats and dyes).

By felting the leather fibres, the LEFA material has almost all the important characteristics of natural leather. No other material comes as close to natural leather in terms of quality and workmanship as LEFA.

The LEFA cover material we use is characterized by optimum physical characteristics (tensile strength, strong seams, durability, tear resistance, etc.).

Only high-quality and carefully selected raw materials are used for LIGHTHOUSE products in order to ensure the desired product characteristics.

## Lockable Book Safe TOSCANA

Now the LIGHTHOUSE lockable book safe is also available in a TOSCANA culinary travel guide version. On the outside, it looks like a book but when you open it up, it actually contains a steel safe with a secure cylinder lock. It is completely inconspicuous and can hold valuables, such as important documents, cash, or jewelry. Due to its small size, this book safe is ideal for traveling. Steel safe (thickness:  $\frac{5}{16}$ " / 0.8 mm) with two keys included, each with a separate key number that is unique to the built-in lock. Inside dimensions of safe: 9 x 5  $\frac{1}{2}$  x 1  $\frac{5}{8}$ " (229 x 137 x 40 mm). Size of book: 9  $\frac{1}{2}$  x 6  $\frac{1}{8}$  x 2  $\frac{1}{8}$ " (240 x 155 x 55 mm).

## The LIGHTHOUSE Lockable Book Safe

Psst! It's a secret: the LIGHTHOUSE book safe is the perfect hiding place for your valuables, important documents, cash and jewelry. On the outside it looks like a LIGHTHOUSE stockbook, but when you open it, the inside contains a steel safe with a secure cylinder lock. The plastic side panels are designed like the pages of a book, thus giving the book safe an extremely authentic look and making it completely inconspicuous. Due to its small size, the book safe is also ideal for traveling. Material: Leatherette cover, safe made of steel (thickness:  $\frac{5}{16}$ " / 0.8 mm). Comes with two keys, each with a separate key number that is unique to the built-in lock. Book color: black with gold embossing. Inside dimension of safe: 9 x 5  $\frac{1}{2}$  x 1  $\frac{5}{8}$ " (229 x 137 x 40 mm). Size of book: 9  $\frac{1}{2}$  x 6  $\frac{1}{8}$  x 2  $\frac{1}{8}$ " (240 x 155 x 55 mm).

# Album Systems

**for Stamps, Postcards, Covers, Documents,  
and so much more**

LIGHTHOUSE album systems are perfect for storing stamps, postcards, covers, documents, and so much more. Our albums and sheets not only provide the necessary protection, they also insure optimal presentation of your collection.

LIGHTHOUSE offers a great selection of albums in many different sizes, designs, and styles. In addition, there is a comprehensive range of supplementary sheets available for every album system, which are specifically designed to accommodate many different kinds of collectibles.

## Plastic Stockpages and Binders

Many valuable objects such as letters, FDC's, postcards, plate blocks or booklets cannot be stored effectively in regular stock-books.

To keep all these safe, LIGHTHOUSE has developed a large number of plastic sleeves and stocksheets.

They are offered in a great variety of different sized strips, pockets and combinations of both.

**LIGHTHOUSE VARIO sheets are the brand trusted by experienced collectors all over the world. Why?**

- VARIO sheets are as versatile as no other system and they come in 18 different variations (see page 64). Whether you have multiple stamp sizes, souvenir sheets, booklets, coil stamps or FDCs – there is a VARIO sheet that fits just right. Also suitable for postcards, banknotes, phone cards, hotel room key cards, casino slot cards and whatever the collector's heart desires.
- Black VARIO pages are double-sided with crystal clear pockets or strips on either side for plenty of space. Clear VARIO pages are one-sided so that the item can be viewed from both sides. Black interleaves provide an ideal back drop or serve to separate chapters.
- Different sheets can be mixed and matched to create an album that suits your needs.
- Black pages are made of Hard PVC; clear pages of polyester. Both are 100% acid- and chemical softener-free, and have been chosen by experienced collectors time and again.
- VARIO pages are Made in Germany and have been for many years. Unlike generic sheets which may be sourced by the distributor from varying suppliers with questionable quality control procedures. LIGHTHOUSE guarantees a consistently high quality with its brand name.

And VARIO sheets are offered at a great price! Therefore, accept no imitations or generics and insist on genuine LIGHTHOUSE VARIO pages – just look for the LIGHTHOUSE logo at the bottom of each page.

**Call us if you need assistance with your VARIO sheet selections and for special offers when you purchase a complete binder with sheets.**

# Optical accessories

Magnifiers are an essential tool for all stamp and coin collectors alike. Whether beginner or expert, at home or on the go, LIGHTHOUSE offers a wide selection of many different styles to suit virtually every collector's needs.

## **Magnifiers with 2–3x magnification**

These magnifiers allow viewing the entire stamp or coin. The motif can be viewed easily and some details become visible. These magnifiers are also great as a reading aid.

## **Magnifiers with 5–7x magnification**

A lot more details can be identified. Unfortunately, increased magnification also means reduced lens diameter and field of view. For proper use, the distance between the eye and the magnifier as well as between the magnifier and the object become smaller.

## **Magnifiers with 10–20x magnification**

With this magnification you are very close to the collector's piece and even the smallest details are visible. For most printing processes individual pixels can be clearly identified.

## **Microscopes**

Microscopes can take a collector's analysis to a new level. Intaglio printing becomes more vivid, microprinting can be viewed easily, and plate errors or die imperfections can be detected.

## **Light**

A good source of light is important - but not always available. LED technology makes it possible to equip even the smallest of magnifiers with powerful illumination while using only a fraction of the energy that conventional light bulbs require. There are even LEDs emitting long-wave UV light which allow identification of fluorescence.

## **Digital microscopes**

Digital technology brings your coins or stamps onto a computer screen. The software included with the products enables objects to be recorded and stored. The USB Digital Microscope quickly and easily creates files that can be emailed, uploaded to websites, or imported into graphics software for further editing and labeling.

## PHONESCOPE up to 60x magnification

The PHONESCOPE macro lens turns your smartphone or tablet into a powerful digital microscope with up to 60X magnification. The finest details, such as the stamp printing processes, can be recognised and checked using the camera function on your smartphone. The enlarged details can be saved as a photo or video. The macro lens offers a variety of uses for both hobby and study and is ideal for use as a reading aid or digital microscope. It's particularly practical when you're on the move, as neither a power supply nor batteries are required. By saving the images on your smartphone, these can then be shared with friends and acquaintances without any effort. Suitable for all conventional smartphones and tablets. Glass lens. Overall size:  $1\frac{1}{2} \times 1\frac{7}{8} \times 1\frac{1}{2}$ " (38 x 47 x 39 mm). Easy to use: simply attach the macro lens to the camera on your smartphone, start the camera function and zoom as required.
