**„Every  
single one  
is worth  
collecting.“**

Frank owns more than 14,000 different ballpoint pens.

Collecting is  
a part of you.

Stamps celebrate history, coins breathe new life into the life of historical figures, and trading cards tender to our hobbies, childhood memories or favorite sports. No matter what collectable lets our heart skip a beat, collecting is so much more than merely storing items. Preserving, displaying, safekeeping are the true passion that drives us all. Lighthouse has been committed to designing accessories for collectibles for over a century, and we will continue sharing this passion with you.

# Collecting is part of us.

We know that collecting is deeply interwoven into the very fabric of our **human** being.

Even though the original spark that initiated this passion may differ, the devotion and dedication we share towards carefully selected keepsakes not only unites us, but grants a pure moment of bliss once we hold that long awaited treasure in our hands.

An experience we all know to well.

For more than 100 years now, we have been accompanying you on this journey of collecting, no matter where in the world or what age, always by your side as **trusted companion with just the perfect accessories to safeguard your treasures in the present and for future generations to come.**

Collecting in itself is so much more than merely keeping or storing things.  
It is the history and stories behind them that gives them value.  
An adventure through the ages that we cherish and share with others.

We know how important collecting is to you,  
how **seductive** the hunt can be.  
We share your passion and provide a stage and  
frame to shape and **honour** your very own collection.

# Dear Collector,

The Lighthouse brand is recognised internationally for the highest quality standards in collecting systems for both philately and numismatics. For more than 100 years, people around the world have been placing their trust in our high-quality products and have used Lighthouse accessories for preserving and transporting their treasured collections.

This includes collector's albums, sheets, collection drawers, **etuis and** cases as well as a wide selection of coin capsules and **catalogues**. We are also able to provide optical accessories such as magnifiers, microscopes, lamps or cleaning and care products. The illustrated albums from the **Kabe and Moc brands**, as well as all items under the Hawid label, complete our philatelic range.

This diversity is also complemented by an ever-growing range of accessories for other fields of collecting, notably bottle caps, **beermats**, champagne caps, autograph cards, tickets, minerals, pin badges and **lots more besides**. After all, we firmly believe that everyone has the potential to become a collector!

However, this hobby is ever-changing. Other fields of collecting become fashionable, and habits change. Lighthouse is reacting to the changing times with new products that fulfil the wishes **of customers**. To achieve this, we constantly combine two principles: tradition and innovation.

Over the past decades, our brand has become a global leader in its field. Our products are available in over 100 countries from expert retailers of coins and stamps.

Silver coins:  
this year's on-trend theme

# Investment meets aesthetic value

Maple Leaf, Kookaburra or Queen's Beasts – these silver coins were basically created for investors. Yet ever more people in the United Kingdom are discovering the potential collector value of these so called: bullion coins.

Over the past few years many issues have increased in price value, far beyond the actual silver value. Indeed, in the investment crisis era, the poor man's gold has shown just how much it is worth.

Gold coins:  
all set for new records

# Good times for a safe haven

Currencies, rulers and nations have come and gone, but gold has endured. The shiny yellow metal is famous as an eternal currency and serves as inspiration – not only to collectors around the world, but also to investors in search of a “safe haven”. Gold has also gained popularity in Europe ever since the onset of the global financial crisis and is becoming increasingly attractive to more and more individual savers.

Mix and match  
and stackable

7

Since the birth of modern investment in precious metals in 1967, gold has very much lived up to its reputation as being a hedge against crises and inflation. And the exit from the turnaround in the interest rate, caused by record-breaking inflation, has resulted in a new gold boom. In recent years, we have witnessed all-time highs in the Euro and US Dollar, with glowing forecasts for the future too.

Besides bullion coins, collectors' gold coins are also very popular—and Germany is now very much at the forefront of minting gold coins, despite gold coins being a numismatic taboo in Germany until 2001. With magnificent motifs and weights in every price bracket, coins from the German Mint appeal to both investors and collectors alike. Regardless of whether a gold coin finds its way into a collection or a precious metal depot, high-quality accessories are essential for long-term value retention.

Indeed, both bullion coins and historical collector's items should be in perfect condition to achieve the best price at auctions or when buying. Safe storage and the proper maintenance of both the modern Kruggerand and ancient gold are, therefore, highly recommended to ensure that gold continues to fulfil its function as currency protection for future generations.

## Encap pages for coins in capsules

# Clear and Simple

Due to the success of the ENCAP pages for slabs and for Quadrum snaplocks, we now carry pages for round coin capsules in many popular sizes.

EncapP pages are convenient, secure, affordable - and a snap to use! Simply open the page, insert the coin capsules, and close it using the easy-snap closure points. The lightweight and durable pages allow viewing the coins from both sides and make archiving and browsing easy. The coins can be securely displayed because the pages cannot be opened once the binder rings are closed. All Encap pages are made from crystal clear PET and are 100 % PVC-free.

Fits all Grande ring binders

## Encap pages

Available for slabs (PCGS, NGC, ANACS, Everslab, Quicksab and many others), Quadrum and Quadrum XL snaplocks and coin capsules with many different diameters - even for champagne caps or bottle caps (page **XX**). Encap pages can best be stored in all Grande ring binders (page **XX**). They are compatible with all oversized 9 × 12" 3-ring or 4-ring binders. Attractively priced page, and binder combination sets are available [on lighthouse.us](https://www.lighthouse.us)

# Pocket Art

The end of tangible currency? According to critical voices a possible near future. Arguments made after the recent plans to stop printing 500 Euro banknotes. However, the touch and feel of banknotes will continue to have a special place in our pockets and albums.

After all, there are exciting stories behind banknotes, as testified by the history of the hyperinflation crisis in Germany in 1923. From an artistic point of view, banknotes are also an attractive field of collecting—and historical treasures in excellent condition will not be affected by the rising inflation during 2023, rather they are surprisingly stable in value.

Coins from around the world:  
a field of collecting for all

# Minted memories

History and geography, culture and art—coins are a wonderful way to discover the world.

Indeed, coins from around the world enable us to experience foreign cultures and learn what defines them. What makes it so special: there is something for everyone! Plus, everybody has access to it, whether it be a memory from a trip abroad, something shared with a foreign penfriend or another personal experience that results in discovering your very own passion for coin collecting.

#### Lighthouse Square Coin Tubes

These tubes have been the industry standard for square coin tubes for over 50 years. Square tubes won't roll away and are easy to handle with their convenient push-top caps. They can be neatly stacked for space-saving and secure storage. The frosted tubes are virtually unbreakable, and they are made from a single archival quality material (LDPE). They contain no co-polymers, no acids, and no PVC and, thus, are suitable for the long-term storage of all coins.

## Coin Capsules and Friends

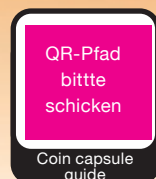

How to protect collectibles and store them properly.

# Individual solutions for your personal needs

Lighthouse offers a large selection of coin capsules for optimal protection of coins, bars and other precious keepsakes. On the following pages you will find a very good overview of the right capsule for each treasure you might have.

In addition to the round coin capsules Grips with rim or Ultra, without rim, which have been tried and tested millions of times and are very popular, square coin capsules under the product names Quadrum or Slab are being used more and more frequently. Oddly shaped or antique treasures can be stored and protected in the new Magic Capsules.

Look here for the capsule guide with all coin capsules in our online shop:
